Craig has provided leadership to the Facility Management Division at Health Sciences Centre Winnipeg since 2004. In this role he is responsible for the strategic, tactical and operational management of the division including maintenance, housekeeping, security, central energy plant, engineering support, energy management and environmental sustainability services. An FM staff of over 550 to meet the needs of this 850 bed tertiary care, teaching facility, spread over 32 acres in the core area of Winnipeg, in 30 buildings, ranging in age from 1898 to 2015. Prior to becoming the FM Divisional Director, Craig held various management and support positions within the FM Division at HSC Winnipeg since 1991. Prior to this he worked in consulting and services to healthcare facilities on medical gas systems throughout Canada and the US.

Craig has a B.S. in Energy Systems Engineering from Arizona State University, and a Masters in Facility Management from the University of Manitoba. Craig is a registered professional engineer in the Province of Manitoba, and also maintains designations as a Certified Facility Manager through IFMA, and a Certified Energy Management through Association of Energy Engineers. He is currently involved in the Canadian Healthcare Engineering Society, Building Owners and Managers Association of Manitoba and the Canadian Standards Association Healthcare HVAC and Smoke Plume Evacuation standards committees.

Craig also serves as the volunteer Executive Director of Manhattan Beach Retreat Centre, a 100 acre Christian camping and retreat centre in southwest Manitoba which provides families, youth, children, seniors, school and community groups with year round camping and retreat centre facilities. In addition to being an amateur barista, he has recently taken up smoking......meat.
