**MISSION**

Building member expertise in Canadian Healthcare Engineering

**VISION**

Excellence in the Patient care focused environment through education, innovation and partnerships.

**VALUES**

We value: Knowledge, Collaboration, Respect, Accountability

**CODE OF ETHICS**

As a member of the healthcare institution or hospital, and also a member of the Canadian Healthcare Engineering Society, I pledge:

- To practice the art and science of engineering as required in hospital and healthcare institutions, to the best of my abilities;
- To maintain integrity and empathy in my professional practice at hospital or healthcare institutions;
- To strive for objectivity of judgment in such matters of confidentiality and conflict of interest;
- To maintain a high standard of personal competence through continuing education and ongoing critical evaluation by my peers;
- To work co-operatively with colleagues, other professionals and lay persons;
- To protect members of the society against the unethical or incompetent behaviour of colleagues or other fellow healthcare professionals;
- To abide by all applicable laws, codes, regulations, and standard practices to safeguard the hospital of science engineering in the protection of staff, patients, and visitors within the environment;
- To promote excellence in the hospital engineering profession;
- To support others in pursuit of hospital engineering goals;
POLICY/PROCEDURE NUMBER: A – 1.1

DATE: June 2, 1997

SUBJECT: Mission, Code of Ethics, Membership, National Executive Committee

ISSUE: By-Laws

REVIEWED: July 2016

PAGES: 2 of 4

- To support the training and education of future members of the society;

- To support the advancement and dissemination of hospital health science engineering as well as allocated knowledge and skills;

- To involve myself in the activities that promote a vital and progressive society.

_We are a non-profit voluntary society promoting improved planning, design, operation and management of hospital technical services systems._

MEMBERSHIP

CHES exists to help its members manage the environment essential for efficient and effective healthcare delivery. Whether you are the maintenance superintendent of a small nursing home or an engineer responsible for engineering services at a large hospital, membership in CHES will enhance your ability to perform your work effectively and efficiently.

CHES members include individuals who are directly involved in, or responsible for, the following functions:

- Plant Engineering
- Facilities Management
- Building Maintenance
- Clinical Engineering
- Safety
- Facilities Planning
- Construction
- Security
- Real Estate Management
- Support Services
- Environmental Management
- Waste Management

CHES also has Associate members:

<table>
<thead>
<tr>
<th>CHES</th>
<th>Consulting Engineering</th>
<th>Project Engineers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Healthcare Consultants and Manufacturers</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

CHES offers:

- Networking and Communication
- Recognition
- Enrichment
- Professional Education Conferences
- Representation
- Advancement
- Participation
- National and Regional
